

# INTRO TO CODING WITH OZOBOTS

**A simple way to begin coding.**

---

Using Ozobot robots, we will work on the basics of coding through simple color programming. When the bot sees different color combinations, it figures out a new command.

What can we make the Ozobots do? Dancing, navigating a path, let's find out what else!

Check out an Ozobot and take it home. Talk about coding and your observations during our Zoom time.

Suggested ages 8-12.  
**Registration required.**  
**Numbers are limited.**

**Zoom meetings**  
**June 29th, 30th,**  
**and July 1st.**  
**1:00-2:00 PM**

---

**Register by filling out**  
**this form:**
