Tic Tac Tech Sheet
Teen Tech Week 2018

All week explore the library's digital resources using this sheet. Complete any three activities in a row (down, across, or diagonal). Be one of the first 10 people to return your sheet to the John Steinbeck Library and win a prize!

Attend one of the Teen Tech Week events at John Steinbeck or Cesar Chavez.	Take a course that interests you on Lynda.com.	Download an e-book, e-audiobook, or e-magazine to your computer, tablet, or phone.
Give the name of one of the venues available through Discover & Go.	Read a technology related fiction or nonfiction book.	Answer this question: What software is available on computer #5 in the Digital Arts Lab at John Steinbeck?
Download the Hoopla, Overdrive, or RBdigital app.	Use World Book Advanced to look up an article on any topic and print it.	Visit Learning Express Library and answer this question: In the School Center, what two subjects are covered in elementary, middle, and high school?

Hints:

- ❖ You will need a Salinas Public Library card for many of these activities and it is 100% FREE!

- ❖ The Teen Tech Week display in the teen lounge has great fiction and nonfiction tech reads.

- ❖ The Salinas Public Library website is a great place to start when looking for our digital resources and research databases.

- ❖ Be prepared to show that you have completed whichever three rows you choose to do (Example: if you complete the last row across, you would show the device you have one of the apps downloaded on, show the article you printed from World Book, and give the answer to the librarian verbally or written down).

- ❖ The SPL librarians are an excellent resource for technology questions and book recommendations. If you get stuck, just ask! We are happy to help!

If you choose a box that requires writing down an answer, you can use the space below:
